WORK EXPERIENCE

Prodios LABS   **Dehradun, Uttarakhand**
Sr. Software Engineer   July 2024 - March 2025

- Led the development and maintenance of both front-end and back-end systems, collaborating with a team to ensure seamless functionality.
- Successfully contributed to the development and optimization of key government platforms, including Apuni Sarkar and ITDA Uttarakhand
- Deliverd Impactful results on the Apuni Sarkar project, improving use experience and system efficiency

PINE LABS PVT. LTD   **KORMANGLA, BANGALORE**
Software Engineer   June 2022 - October 2023

- Worked with team and build an application for Merchant, where merchant can create coupons and do the other operation from the same application.
- Contributed to the development of the UI in alignment with UX design, ensuring a seamless and visually appealing user experience. Collaborated closely with UX developer to implement design suggestions, resulting in a cohesive and use-friendly interface for the application.

PROJECTS

Learning Management System (LMS) 🐙

Developed a responsive LMS platform with role-based features for Teachers and Students, ensuring seamless functionality and intuitive user experience across devices.

- **Teacher Features:** Create, price, publish/unpublish courses, offer free courses, and track sales analytics.
- **Student Features:** Browse, search, and purchase courses while tracking learning progress.
- **Technical Highlights:** Secure authentication with Clerk and seamless payments via Stripe.

Tech Stack: Next.js| Node.js | MongoDB | Prisma | Tailwind | Typescript

Zotion 🐙

Built a Notion-inspired productivity app enabling users to manage tasks and collaborate in real time. Integrated Convex for live database updates, Clerk for authentication, and Edge store for efficient media handling.

- **Features:** Real-time task management, collaborative note-taking, secure authentication, and media storage.

Tech Stack: Next.js| Node.js | MongoDB | Prisma | Tailwind | Typescript
